Memorandum No.3621 B/27, dated 20th December 1927.

Assessment - Charge for water - Bellary District - Bellary Taluk - Rupanagudi village - Double Crop lands - Reference Board's Endorsement No.F. 5436-25, dated 15th January 1926.

p.4 of (K)

p.3 of (K) In his letter L.Dis.C.6679/25, dated 6th January 1926 forwarded with the Board's Endorsement read above, the Collector of Bellary reported that an extent of 161.70 acres in Rupanagudi village was registered as double crop wet at the resettlement, as two wet crops had been regularly raised on the lands in previous years. It is presumed that before the resettlement these lands had been paying assessment at 1½ times the single crop wet assessment, for raising two wet crops. The Board of Revenue is requested to ascertain and report whether this presumption is correct and also to forward for the perusal of the Government the account prepared in the course of settlement operations which will give this information.

Sir,

Assessment - charge for water - Bellary taluk Rupanagudi village - Double crop lands.

Board's Reference F.105/28-1 dated 6-1-28.

The extent in question was compounded double crop land paying assessment at 1¼ the single crop wet assessment. During the resettlement it was registered as permanent double crop land assessed at 1½ times the single crop wet assessment. I enclose the marginally noted accounts for reference and return.

List of enclosures.-

2/- Prior to 1918 only lands under first class sources which usually receive an assured supply for two crops were compulsorily registered as 'double crop'. In para 10(a) of the notification for the resett. of the S. Arcot Dt. issued in G.O. No. 1023 Rev dt. 13-3-1918 the condition that such registry should be confined to lands under first class sources was omitted. — vide also para 2 (2) of Bds. Rejce. ~~3/~~ The Collr. states that this extent was prior to the resett. registered as 'compounded double crop', assessed at 1¼ times the single crop assett. This ~~does~~ does not seem to be quite correct as the statement of double crop cultivation shows that S. Nos. 1—B+C, 106 A, 109, 111 + 112 A were 'single crop land'
